The pants will make a... special sound when you squat in them. I'll let Julia Leonard explain and demonstrate in her viral TikTok from Tuesday. Leonard told BuzzFeed News she didn't try the pants at all until she wore them recently while out to eat with her family. And as she described in her TikTok, which has already been viewed more than 2 million times when her sister dropped her phone, she bent down to pick it up, and a flat sound was created. Leonard said. My sister said, You're disgusting! The teen said she finally realized when she got home that it was the friction in the design of zara's pants that makes a noise. My family is in hysterics, she said. They made me do it over and over and made a show out of it. I did a whole HIIT workout as much as my legs go up and down. Leonard posted TikTok about his pants to inform others and it immediately went viral. People are now fully informed - and totally amused. Like her own family, strangers now ask her to squat over and over in her pants for their amusement. People want her to do it in rapid-fire mode and record herself dropping things in front of people in the store. From the wild demands and instructions on the internet, Leonard also realized that this is one particular squat shape that causes pants... Fart. Leonard said she's glad people enjoy it, but she's surprised she hasn't deterred one person from buying these pants. She said she had received messages from more people saying: I need it and asking her for a specific stock unit number. It's just funny something so small as that can explode so big, Leonard said. I thought that will like: I don't buy these, but it's completely completely Effect. I was, what the hell? BuzzFeed News has reached out to zara for comment. We will update if we get any breaking (wind) news. Leonard added that many young women message her sincerely to thank her for lightening their day with something so indian. I saw a bunch of comments from girls saying: I had such a bad day, I just cried before, and then I saw this video and it really made me laugh, so thanks for that,' she said. It just made me happy with that one little thing like that could change someone's day. Remember the skinny jeans? Yes, and so are we.
